Percent commission is based on the total dollars spent on commissionable items in a calendar month less any applicable shipping and sales tax, and discounts by orders placed by yourself or customers on your link. Returns and any chargebacks from this or prior months are subject to deductions from commissions if applicable.

Rank in JANUARY will be solely based on personal sales and not a function of your frontline, secondline, and community.

As a function of the software, the next commission level is reached and paid out on the order that reaches the total dollar amount is reached in its tier.

In other words, commissions are NOT retroactive to their tier. You'll earn the highest % of commission on the order based on the total you've achieved with that order that month and reach that commission level with the FIRST order that crosses the qualifying amount for its tier.

GET PAID ON YOUR COMMUNITY

Invite friends & family to join, and when they follow your link and do we'll pay you on their sales! Earn generously:
